DETAILED ACTION

1. This application is a 371 of PCT/KR03/01502.
Claims 1-10 are pending.

2. *Examiner's Amendment*

Authorization for this examiner's amendment was given in a telephone interview with Mr. Keith Townsend on Oct. 3, 2007.

Claim 10 has been canceled.

Add new claim:

Claim 11. A pharmaceutical composition for inhibiting cysteine proteases comprising a therapeutically effective amount of a compound of claim 1 or a pharmaceutically acceptable salt thereof, and a pharmaceutically acceptable carrier.

3. *Reason for Allowance*

The following is an examiner's statement of reasons for allowance:

The compounds and composition of claims 1-9, 11 are neither anticipated nor rendered obvious by the art of record. Closest prior art is found in US 6,117,870 wherein structurally similar compounds for similar utility were disclosed. The prior art compounds differ from the instant claims in that the central piperidiny ring lacks the 3-oxo moiety. No suggestion or motivation to modify the prior art unsubstituted N-acylated piperidine (col. 41, example 22) to the instant 3-oxo-N-phenyl piperidine. The examiner amendment obviated all 112 issues of the claims. Claims 1-9, 11 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

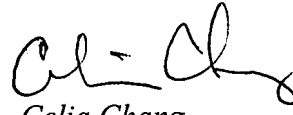

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Celia Chang, Ph. D. whose telephone number is 571-272-0679. The examiner can normally be reached on Monday through Thursday from 8:30 am to 5:00 pm.
